What are cookies?

Cookies are small files that are stored on your media and in which are stored certain settings and data for an exchange with the system through your browser. Some of the cookies are deleted immediately after the browser session is over (i.e., temporary or session cookies). Other cookies stay on your final device and enable us to recognize your browser at the next visit (persistent or stored cookies).

Zakaj uporabljamo piškotke?
Cookies are of fundamental importance to provide user friendly web service. The interaction between the web user and website is faster and easier with the help of cookies. With their help website remembers individual's interests and preferences, and with it saves user time, and makes browsing through the website more efficient and friendly.

Cookie types
There are four main types of cookies:

- **Necessary Cookies:** These cookies are crucial as they allow moving through and using features of the website.
- **Functional/analytical cookies:** These cookies allow the website to remember your choices (such as user name, language and region in which you are located) and offers you improved and more personal functions. Information, that are collected by cookies can be anonymized and these cookies cannot follow your activities in browser on other websites. These cookies collect information about how you use our web site. Analytical cookies do not gather information that identifies you. All of the information, gathered by these cookies are united and therefore anonymous.

  The obtained analytical information is only used to improve the performance of the web page. Anonymizing data with the Google Analytics solutions allows that based on the anonymous data connecting or identifying any kind of single user is impossible in any way. By using the cookies listed below we receive statistical report about the visit and activities on our website without obtaining any kind of personal data about the user, because with this solution user anonymity is guaranteed.

- **Third party marketing cookies:** These cookies are used to show ads that are more relevant to you and your interests. They are also used to limit the number of times each ad is shown and also to help measure the effectiveness of an advertising campaign. They remember that you visited the site and this information is forwarded to other organizations such as advertisers.

By using the websites you agree to the use of necessary cookies. Required cookies are necessary for the operation of the website and we do not store your personal information and allow you to navigate the web site and use the features of the web pages.

Cookie management

You determine the use of cookies yourself. You can always remove or accept by clicking on the "I agree" field in the notice on the use of cookies on the website. Most web browsers save cookies automatically. Functioning of the web browser can be changed in the settings in a way that the computer can either refuse cookies or that the warning is shown before the cookie is saved.

Cookie installation can be completely prevented for all websites that you will visit. Cookies that are already saved on your computer can be deleted.

By deleting or blocking cookies it can happen that all or some web pages you visit (or their functions) won't work properly or as equally effectively. If you enable a certain cookie or if you delete all cookies, your preferences won't be saved and you will get a notification about cookies every time you will visit our website.

You cannot edit the setting of necessary cookies. However, non-essential cookies may only be stored with your explicit consent.
